Please register me for
'Regulatory and Technical Issues in Environmental Control'

- £140 Non-member
 £100 Member or Corporate Associate of The Filtration Society
 £70 Student/Retired (proof required)

Please send information on membership of the Society:

- Student membership
 Individual membership
 Corporate Association

Payment method:

- Cheque enclosed for £.....
 Credit Card: Please charge my MasterCard – Visa

Security Code: - - - -
(last 3 digits on reverse side of card)

Cardholder name:

Expiry date:

Signature:

- Please invoice

Please fax or send this form **WITH PAYMENT** to:
The Filtration Society, 5 Henry Dane Way, Newbold
Coleorton, Coalville, Leicestershire LE67 8PP
(fax +44 (0)1530 223124)

*Cheques should be made payable to **The Filtration Society**. Charges include VAT, lunch and refreshments. A VAT invoice will be issued on receipt of payment. The Society regrets that it cannot refund the registration fee if registrants cancel within 2 weeks of the date of the meeting. Prior to that a 20% cancellation fee will apply.*

ABOUT THE SOCIETY

The Filtration Society was formed in London in 1964. It is a charitable, non-profit organisation established to advance and disseminate knowledge on the design and use of filtration and separation techniques in industry, commerce and other walks of life.

Membership of the Society is available at several grades including Student and Individual levels. Corporate Association is available to companies. In general membership is open to interested individuals; most members work for manufacturers and users of filtration and separation technologies, or for universities and research organisations.

The Society organises regular technical meetings that keep members up to date with advances in filtration and separation and their application and refreshes their knowledge of established technologies. Membership has many benefits which, depending on the grade, include:

- Reduced registration fee at meetings
- Networking and sales opportunities
- Regular copies of the quarterly journal FILTRATION, the official journal of the Society
- A 50% discount on "Filtration & Separation" and 25% discount on books from Elsevier

The Society currently has members in about 30 countries around the world. It has an established Trust Fund which is used to recognise distinguished contributions to filtration and separation through the award of The Gold Medal and The Suttle Award.

Further details can be found in The Filtration Society membership leaflet or on the world wide web at:

Regulatory & Technical Issues in Environmental Control

10th May 2007

**A one day technical meeting
to be held at
The Heath Conference
Centre, Runcorn, UK**

REGULATORY & TECHNICAL ISSUES IN ENVIRONMENTAL CONTROL

Everywhere today the topic of the environment and its measures and controls looms large.

Success in managing and regulating waste in whatever form calls for integration of many professionals drawn from scientific, technical, engineering, consultancy, political and managerial backgrounds to meet the challenges of the ever changing commercial and legislative landscape.

This one day technical meeting will discuss the technical aspects and regulatory effects surrounding environmental control and provide useful information on many aspects of legislation and Best Available Technology (BAT).

The meeting will provide overviews of current emission standards & legislation, gas cleaning, high temperature environmental filters, waste management, equipment, monitoring systems and advanced systems for treatment of wastes.

Participants who will benefit include process and consultant engineers, designers, environmental managers, applications engineers, and university researchers who have an interest in this field.

Attendance at Filtration Society meetings is open to all - members, non-members and non-UK delegates. All delegates will receive a comprehensive set of bound notes which have always proved to be a very popular and up to date reference source.

TECHNICAL PROGRAMME

- 9.00-9.30: Registration with coffee
9.30-9.35: Welcome and introduction
9.35-10.10: Current Emissions and Legislation Standards - Environment Agency
10.10-10.50: Overview of Industrial Gas Cleaning - Tal Golesworthy, EDT Ltd
10.50-11.15: COFFEE
11.15-11.50: Membrane Bioreactors – Advanced Processes for Wastewater Treatment - Jack Noble, GE Water & Environmental
11.50-12.25: Scavenging Clean Up Technology for the Pharmaceutical Industry - David Pears, Reaxa Ltd
12.25-13.30: LUNCH
13.30-14.05: Filters for Control of Emissions to the Atmosphere - Chris Withers, Caldo Engineering
14.05-14.40: Catalytic High Temperature Filter Elements - Andy Startin, Madison Filter Ltd
14.40-15.05: TEA
15.05-15.40: The Necessity for Monitoring Filter Efficiency - James Latham, TSI Instruments
15.40-16.15: Economic and Commercial Issues in Waste Management - James Heath, Cyclerval Ltd
16.15: Close of meeting

FORTHCOMING FILTRATION SOCIETY MEETINGS

2007

- 19 June - Technical Visit to Ratcliffe-on-Soar Power Station, UK
20 June - Albert Rushton Memorial Golf Day, Newark Golf Club, UK
17 September - 11th Nordic Filtration Symposium, Copenhagen, Denmark
4 October - Preserving Profits Through Filter Automation, Technical Meeting and Exhibition, Runcorn, UK
22 November - Innovative Media: Applications for Process Improvements, Technical Meeting and Exhibition, Runcorn, UK

The Heath Conference Centre is well served by a network of motorways and offers ample free car parking, and is within 20 minutes of Manchester and Liverpool International Airports.
