

## REGISTRATION FORM

Name: .....  
Company: .....  
Address: .....  
.....  
.....  
Post Code: .....  
Tel: ..... Fax: .....  
E-mail: .....

Please register me for

**'New Developments in Filtration Technologies'**

- £140 Non-member  
 £100 Member of The Filtration Society  
 £70 Student/Retired (proof required)

Please send information on membership of the Society:

- Individual or Student membership  
 Corporate Association

**Payment method**

- Cheque enclosed for £.....  
 Credit Card: Please charge my MasterCard – Visa

-----  
Security Code:    \_ \_ \_  
(last 3 digits on reverse side of card)

Cardholder name: .....

Expiry date: .....

Signature: .....

- Please invoice

Please send or fax this form **WITH PAYMENT** to:  
**The Filtration Society, 5 Henry Dane Way, Newbold**  
**Coleorton, Coalville, Leicestershire LE67 8PP**  
**(fax +44 (0)1530 223124)**

*Cheques should be made payable to **The Filtration Society**.  
Charges include VAT, lunch and refreshments. A VAT invoice  
will be issued on receipt of payment. The Society regrets that it  
cannot refund the registration fee if registrants cancel within 2  
weeks of the date of the meeting. Prior to that a 20%  
cancellation fee will apply.*

## ABOUT THE SOCIETY

The Filtration Society was formed in London in 1964. It is a charitable, non-profit organisation established to advance and disseminate knowledge on the design and use of filtration and separation techniques in industry, commerce and other walks of life.

Membership of the Society is available at several grades including Student and Individual levels. Corporate Association is available to companies. Membership is open to interested individuals; most members work for manufacturers and users of filtration and separation technologies, or for universities and research organisations.

The Society organises regular technical meetings that keep members up to date with advances in filtration and separation and their application and refreshes their knowledge of established technologies. Membership has many benefits which, depending on the grade, include:

- Reduced registration fee at meetings
- Networking and sales opportunities
- Regular copies of the quarterly journal FILTRATION, the official journal of the Society
- A 50% discount on "Filtration & Separation" and 25% discount on books from Elsevier

The Society currently has members in about 30 countries around the world. It has an established Trust Fund which is used to recognise distinguished contributions to filtration and separation through the award of The Gold Medal and The Suttle Award.

Further details can be found in The Filtration Society membership leaflet or on the world wide web at:

# New Developments in Filtration Technologies

**4 March 2008**

**A one day international  
technical meeting to be held  
at**

**Department of Chemical  
Engineering  
Loughborough University  
UK**

## New Developments in Filtration Technologies

Industry and universities both play an important role in the development of new filtration technologies and their applications – and when they collaborate over R&D projects, economic developments are well based and the time-to-market is shorter.

This one day conference aims to bring together people with an interest in filtration in order to update them with the latest advances in new or emergent filter technologies. Speakers will highlight how issues ranging from tightening legislation to the growing number of finer, more demanding, filtration processes are driving the need for new developments that satisfy potential customer needs.

Continued developments in technology are key to a number of filtration processes and will be of particular interest to process engineers, designers, technical and R&D staff, research institutes and decision makers. During the day there will be ample time for delegates to network and talk about their specific issues.

**Attendance at Filtration Society meetings is open to all - members, non-members and non-UK delegates. All delegates will receive a comprehensive set of bound notes which have always proved to be a very popular and up to date reference source.**

## TECHNICAL PROGRAMME

9.00-9.30	Registration
9.30-9.35	Welcome and introduction
9.35-10.10	Filtration Technology – Its Impact on Our Daily Life David Dubbin, GEA Process Engineering
10.10-10.45	Activated Carbon Cloth – From Warfare to Healthcare Jack Taylor, Carbon Cloth International
10.45-11.15	Coffee break
11.15-11.50	Separation of Organics from Wastewater Using Nanofiltration Osama Farid, University of Nottingham
11.50-12.25	Nanofiltration: A Method for Improving the Purity of Fuels and Non-Aqueous Solvents Dr Steve Tarleton, Loughborough University
12.25-13.25	Lunch
13.25-14.00	A Novel Technology for Multi-Phase Liquid Treatment Dr Christopher Finn, Fibra Ltd
14.00-14.35	Polyhipe Media and its Applications Prof. Galip Akay, Newcastle University
14.35-15.05	Tea break
15.05-15.40	Yeast Microfiltration Using a Modified Surface Filter Dr Mike Stillwell, Micropore Technologies
15.40-16.15	Polyaniline Membranes for Gas/Gas Separations Dr Yogesh Gupta, Loughborough University
16.20	Close of meeting

## OTHER FILTRATION SOCIETY EVENTS IN 2008

- ◆ 10 May **Membrane Filtration: Innovations and Applications**  
*The Heath Conference Centre, Runcorn*
- ◆ 28 October **Filter Testing and Standards**  
*Ramada Hotel, Chester*

The event will be held at Loughborough University which is within easy access of Nottingham East Midlands Airport and well served by the motorway network.
